

SMART SCAN SENSOR MKII – CEILING MOUNTED MOTION SENSOR

The ceiling mounted motion sensors consists of two items; a 360 degree high definition passive infrared (HDIR™) sensor head and a control/relay module.

High sensitivity 360° detection array designed for both minor and major movement applications

Integrated light level detector to inhibit switch-on if there is sufficient natural light available

Rated at 16A for switching inductive/capacitive loads

Flush ceiling mounted motion sensor

Unobtrusive, 60mm diameter flush-mount design

Hidden yet easily accessible sensor head adjustment controls for time-out and light level adjustment

Includes a switch input that allows for manual override off control

SMART SCAN SENSOR MKII – CEILING MOUNTED MOTION SENSOR

Product Specification

50000 Rated Average Life	IP20 Ingress Protection Rating	240V Voltage	0.17KG Weight	-10 to 50 Operating Temperature
52mm Cutout Width	Recessed Installation Type	4000W Lamp Power	240 Nominal Line Voltage - Max	220 Nominal Line Voltage - Min

Item Code	Description
DGSMARTSCAN1HD	SMART SCAN MK2 360 DEGREE PIR HD SENSOR 1 CHANNEL 16A OUTPUT
